

Craft/Art Instructions:

Once you and the children have read the book, have fun with them, encouraging them to make their own story with illustrations!

Cut out each stencil and pattern. Based from the illustrations, choose colors for your projects in construction paper, crayons, colored pencils, non-toxic paint, etc. Trace the stencils and patterns on the paper of choice.

Bulletin Board Designs:

Design each bulletin board to match the illustrations from the book. Enlarge the backdrop stencils for your board and use construction paper to design it to resemble the page of choice. Cut out enough "bee" stencils for each child. Have each child craft their own "bee", labeling them with their name and placing each "bee" on the board. Print the scripture verse out for your board and don't forget to help the children memorize the verse!
